DESTRUCTIVE TORNADO IN THE SOUTH.

Fatalities Reported at New Orleans and Many Points in Mississippi, Oklahoma and the Indian Territory—Crops Are Badly Damaged By the High Gale.

New Orleans, Oct. 30.—About 4:30 o'clock Thursday afternoon a cyclone struck this city on the river front, just above Pension street, and swept over a distance of about a mile and a half, or thirty blocks from Pension street to Robin street, the track of the storm being about 1,500 feet wide from the river to Annunciation street. The first building damaged was the Independence oil mill, situated at the head of Pension street. It was unroofed and building and contents damaged to the amount of \$6,000. The conveyors of the new elevator of the Illinois Central railroad were slightly damaged and John White Meyer and John J. Buck, employed at the elevator, were severely injured.

Hundreds of buildings in the track of the storm were damaged, many being partly unroofed and chimneys prostrated, trees uprooted and fences blown down. Some lives were reported lost at first, but so far these reports have not been verified. The property loss is estimated at \$100,000.

LOSS OF LIFE IN OKLAHOMA.

District Several Miles Wide Devastated—Much Damage in Payne County.

Guthrie, O. T., Oct. 30.—A cyclone swept over a stretch of country about twenty miles east of here at 7:30 o'clock Wednesday night, devastating a district several miles long and probably a hundred yards wide. The farmhouse of William Toby was first in the path of the storm. The building was destroyed and Toby was probably fatally injured. The other members of his family escaped.

Half a mile further north the Mitchell postoffice and store was lifted bodily into the air, carried a hundred yards and dashed to the earth. The building was smashed into splinters, and postmaster M. L. Mullin and his wife, who lived in the building, were killed. They died clasped in each other's arms. The Mullins came here from Rock Island, Ill.

Rumors are current here that the same storm did frightful damage further northeast, in Payne county, and that several persons were killed there, but particulars are not obtainable. There was a tremendous fall of rain here and considerable damage was done by washouts and the carrying off of crops.

At Wewoka, I. T., the cyclone destroyed Gov. Brown's store, a new church and four other buildings. Several persons were hurt, but none seriously. At mine No. 12, near Krebs, it is reported five people were killed. During Mr. Bryan's speech and as he hurried to the train yells for McKinley were lively on all sides, but the candidate was given a rousing cheer at the end. At about noon the train pushed slowly through a solid mass of people about the depot at Rockford. J. G. MONAHAN SPOKE AT ORFORDVILLE

DARLINGTON EDITOR PLEASSED HIS AUDIENCE.

Was Frequently Compelled to Wait For Applause to Subside—Center Is in Line For McKinley and Good Money—General News From All Parts of the County.

Orfordville, Oct. 30.—One of the most enthusiastic political meetings held during this campaign, was the mid-day republican rally held in this village on Monday afternoon. Despite the fact that the farmers were so very busy, the opera house was packed, and enthusiasm was at high water mark. The meeting was addressed by Hon. J. G. Monahan of Darlington, who more than sustained his reputation as an orator and a logician.

This was Mr. Monahan's first speech in Wisconsin, he having been under the direction of the national committee, speaking in Iowa, Nebraska and North and South Dakota. He spoke for two hours, holding the closest attention of his audience, who showed their approval of his position upon the different phases of the question under discussion, by frequent and prolonged applause.

Convinced His Audience. Several times the speaker was compelled to wait until quiet could be restored before being able to be heard. He first took to task the position of the popocracy, that there is but one issue, that of money, now before the American people. He contrasted the condition of the country in 1891 and 1892 with that of now, and asked if any one in the audience, thought for a moment, this change was due to the money. He marshalled his facts regarding the tariff in such a manner as to convince the most skeptical that the present democratic administration was responsible, "for we had exactly the same kind of money during the prosperous era of the early nineties as now."

His discussion of the financial question was most thorough and complete, covering every point made by the opposition.

Spoke of Platform. He then took up other planks of the Chicago platform, which he proceeded to handle without gloves. The attack upon the supreme court and the condemnation of President Cleveland, and for his patriotism, during the Chicago riot, were held up before the audience, while the speaker administered a most scathing rebuke to the framers of the platform, declaring that in upholding and sustaining it, people were sowing to socialism and would reap anarchy. He paid a glowing tribute to those loyal democrats who have espoused the cause of national honor and patriotism, "rather than to be led into the slough on national disgrace by the populist." His closing was a eulogy to the honor, bravery and statesmanship of William McKinley, and prophesied his election by an overwhelming majority. He closed only in time to take the afternoon train for Sharon, where he spoke in the evening.

Other News Notes. Mrs. Warren Taylor and daughter Ida returned on Monday from a two months visit with relatives in Minnesota and western Wisconsin. Senator T. D. Weeks will close the campaign for the republicans at Orfordville on Monday evening by a speech at the opera house. During the campaign our people have had the pleasure of listening to Hon. C. H. Frazer of Lake Geneva, Ex-Governor Hoard and Hon. J. G. Monahan. The committee are to be congratulated on being able to obtain such a force. Rev. H. C. Siedel will preach at the M. E. church on Sunday, he having consented to return and supply this place and Plymouth for the year. His many friends will extend hearty welcome. Miss Stroud Smith is holding services at the Baptist church each evening this week. She is an interesting speaker. Clerk of the Court Goldin was in town Friday making young republicans. About a dozen were naturalized. Mr. A. M. Hamblett had the misfortune to fall on Monday, in such a manner as to fracture his hip. On account of his age and feeble condition the accident is doubly serious. Presiding Elder Pease occupied the pulpit at the M. E. church last Sunday morning and evening. D., has been appointed to a professorship in the Medical department of the Michigan University at Ann Arbor. A ladies' black cape was found on the street of our village the other evening. Same has been left at the drug store. Owner can have same by calling.

"BLATANT CANDIDATE" IS TO BE HERE TODAY.

"He rides through the country, trumpet in hand, on a bass [drum]!"—General Bragg.

Extract from Dr. Whiting's speech, introducing General Bragg, at the Myers Grand, October 14, 1896:

Democrats, especially, were interested, he declared, as they are held partly responsible for a blatant candidate was going over the country denouncing the real democracy. After driving real democrats from the convention, he said, the Chicago conspirators had made a platform that upon which "no real democrat could stand without burning his feet." [Applause] Long haired men belonging to the same of all parties, were the rulers and were misleading the people and misrepresenting the great democratic party.

The leader of this false democracy, the doctor said, fiddled—not while Rome burned—but while the temple of liberty rocked! [Applause] "It matters not what becomes of the false prophet," he insisted, "but what shall become of the people? That is the question." [Applause] The misguided people were following a man without reputation and without experience.

These are the sentiments expressed by two life-long democrats, who now put their country's good, above their party allegiance.

Our Business in Cloaks Is Phenomenal.

What a clever word "best" is, anyway. So short and conveys so much meaning. What meaning does it convey to you when applied to winter garments? Whatever it is you will find it exemplified in our stock, and perhaps some "best" points that you didn't think of besides. It matters not what price you want to pay for a jacket or cape, we can suit you. New things every day.

In order to be able to do such a tremendous amount of winter garment selling it is necessary to have the right kind of styles, and variety large enough to suit all who come. Handsome double Capes at \$5, in black and two toned cloths, fur and braid trimmed. Excellent, nobby jackets at \$6.50, \$7.00, \$8.00—that ought to be much more.

A Great Many people are not prepared to put very much into a winter garment, and we have made unusually large preparations this fall to have styles to fit everybody's purse, and the consequence is:—Few women who see our creations leave the store without buying. There are many, trashy, worthless things in the market, that can be offered at very small figures; and some people who judge by price alone buy such garments. Be critical about quality, be not fooled by a small price. We fight shy of shoddy

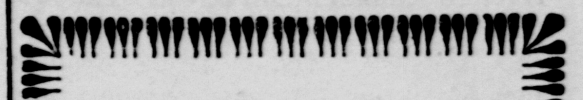

OUR COAL is therefore fresh and clean and there is life in it. Our prices are living prices and have been shaved to the needs of the public by purchasing at first hands. Our coal is under shelter and well screened.

Stop a moment And consider this

whether it is more profitable in the long run to buy cheap, so-called tailor made clothes, measured by a novice, cut by a sweat shop and your money sent out of town, or patronize those who employ first class UNION labor, whose customer is an artist, and who cheerfully will make wrong, right, and leave their money right at home.

THE NEWS OF ROCK COUNTY.

(Continued from page 2.)

house and lot in this place, have decided to make their home in Janesville, and will move there soon. Miss Nellie Holmes, born and brought up in this place, left here on Monday to live with her mother, Mrs. D. Van Valen, in Janesville. She lived with her grandmother, Mrs. Holmes, until her death about two weeks ago. We did not like to part with one so useful and well liked by every one as Miss Nellie, but Janesville has gained what we have lost. The fine weather the past week gave farmers an opportunity to get their clover threshed out and they say it is yielding very good and fine quality. M. F. Allen is selling a good many car loads of coal at the depot. The price is \$7.25 a ton. Mrs. Swingle has not improved much in the past few days. Our town is putting in some nice little iron bridges through the town of Turtle, where new bridges are needed. Richard Overton has rented what is known as the Loucks farm, for the coming year, and moved thereon last Monday. Frank Humphrey, of Beloit, is in town for a few days. On last Tuesday evening a reception was held at the Methodist church, for the new pastor, Rev. Terney. There was a full house; an excellent supper was served, and all had an enjoyable time. C. H. Weirick went to Chicago Wednesday morning to purchase a winter's supply of goods for his store in this place. Jerome Shimel, our hay and straw buyer, went to Chicago this week, on business and pleasure. He runs a hay press, and is kept very busy. Mr. Burnham has rented the Thomas Holmes place, and has moved in. The teams around the butter factory in the morning and until noon, are as thick as flies around a cider mill on a hot day.

DUEL ON FOOTVILLE STREETS

Aim Was Not True, However—Old Hat Social Given

Footville, Oct. 30.—A duel came near being fought on our public streets Saturday night. All that it lacked was truer aim by the participants. Mrs. Campbell and Mrs. Tenick heard Elder Spencer preach at Center last Sunday forenoon. Our schools are running in fine shape and everything goes harmoniously. It being the best we have had for some time. This cool weather does not expedite matters any about separating milk, and the farmers are later now than usual in getting away from the creamery. The "Old Hat" social at Thomas Ogden's was very largely attended on last Friday evening, and many a couple that went there together were misnamed at supper. Mrs. Dora Ogden and Mrs. Webb Owen are planning to take a trip east soon, where they will spend several weeks visiting among friends. Everybody should attend the big campaign social held in Masonic hall on Tuesday night. The latest election returns will be announced direct from the wires. A program will be given and chicken pie and everything that's good will be served by the ladies. The funeral of Pierce Wallihan took place from the M. E. church on Wednesday at 1:30 p. m. He was an old and respected settler here, and had suffered much in the last several weeks of his illness. Dr. George Snyder of Baraboo, Sunday with his brother, Andrew. Miss Clara Egerton had the pleasure of entertaining her friend, Miss Hattie Service of Afton, on Sunday. Mr. Lugg was accompanied by his brother-in-law from Beloit, during his preaching services here.

C. are going to serve a lunch election day here and at Milton. Proceeds to go into the relief fund. The horseless wagon drew a big crowd to the depot, Tuesday; and the concert in the evening was well patronized. Alvah Johnson and granddaughter, Myrtle Johnson, of Darlington, visited at Steve Korn's, Wednesday. Will Van Lone returned from Fox Lake, Tuesday. It is reported that S. C. Carr has been quite sick in the old country, but expects to get home in time to vote, next Tuesday. Mrs. Charles Ogden has been entertaining relations from Glyndon, Minn., the past week. LaFollette at Edgerton.

Edgerton, Oct. 29.—Many people from the country for miles around braved the rain and drove in to hear Ex-Congressman LaFollette address an afternoon meeting here today. Royal hall, one of the largest audience rooms in the county was filled with an enthusiastic assembly. The first half hour of the meeting was addressed by S. A. Harper while Mr. LaFollette was resting at the hotel. The ex-congressman spoke for about two hours and was listened to with marked attention.

HOW TO VOTE A SPLIT TICKET

Directions For the Man Who Wants to Do a Little Remodelling

A correspondent who evidently desires to split his ticket at the coming election, writes to ask how it can be done. If a person desires to vote the republican ticket, with the exception of one candidate on that ticket, he must place an X in the square above the republican ticket, then erase from that ticket the name of the candidate for whom he does not wish to vote, and place an X after the name of the candidate on the other ticket. The single X after one name on the latter ticket will not carry other candidates. —Milwaukee Sentinel.

FINE NEW BRIDGE IS OPEN

Indian Ford Bridge is a Credit to the County.

The new iron bridge at Indian Ford was completed this week. It has cost in the neighborhood of \$10,000 and is one of the finest pieces of bridge work in the county. The time consumed in the construction was about three months. The work was done by the Milwaukee Iron Bridge company and has been accepted on the part of the county and town of Fulton by a committee of five consisting of Alex. White, S. Allen, M. Raybor, C. E. Langworthy and J. E. Gleason.

NOTHING CAN BE DONE NOW.

Electric Vehicle Company's Vice President Is Absent From the City.

O. Denhaus, who is now in the city in the interest of the Electric Vehicle company, received a letter this morning from the firm's headquarters in Chicago. The letter stated that nothing definite could be done, for the present about moving the factory to Janesville on account of the absence of Vice President E. P. Crocker who is now in Minneapolis on a business trip. THE PROGRAM FOR TONIGHT. CULTURE club. Good Templars. DANCING school. HALLOWEEN social at Presbyterian church. ERWORTH League social at Court Street church. TRY Society at the home of Mr. and Mrs. E. P. Wixom.

BRYAN SHOULD READ THE FLIP-FLOP

Can Get Inspiration From the Flies of That Paper. Mr. Bryan will visit Janesville today. Some one should present him with a file of the Flip-Flop that he may get inspiration for his Evansville and Madison speeches. He ought to see the issues of June 24, 1896, and October 23, 1896, in any event. On these two dates the Flip-Flop settled the thing—like this:

The Recorder of June 24, 1896—"Free coinage 23, 1896—"The gold standard is a monumental fraud." "Jard is a failure."

Either Mr. Bryan should discipline the Flip-Flop, or the Flip Flop should discipline Mr. Bryan. Their stories do not hang together.

T. J. CLARK TO GET UP LEAGUE

Janesville Base Ball Enthusiast is Making Plans For 1897

T. J. Clark of Janesville, is planning to organize a Wisconsin state base ball league for 1897, and expects to include Racine, Janesville, Sheboygan, Fond du Lac, Oshkosh, Wausau, Appleton and Stevens Point in the circuit. In most of these places there is already the nucleus of a team. Fond du Lac has a half dozen good players, Sheboygan's club is almost good enough now to travel in state league company, and both of these cities are enthusiastic ball towns, and would probably support the game in good shape. —Milwaukee Sentinel.

HAVE A BIG DEMAND FOR FLAGS

"Flag Day" Suggestion of Chairman Hanes Causes a Big Trade.

There is a sudden demand throughout the city for the American flag, and local merchants report a brisk sale. The sudden demand is brought about entirely by the suggestion made by the republican national chairman that Saturday, October 31, he regarded as "flag day" and that all who intend to vote for sound money display the same. A traveling man for a Chicago flag house informed a local merchant that "the house" was having a big trade.

Dr. Wetherell, an officer of the Lunacy committee of the state board of charities of Pennsylvania, spent last night at the School for the Blind, after visiting the Rock county asylum. Dr. Wetherell is making a tour of inspection of the Wisconsin county insane asylums. The system in Pennsylvania is not giving satisfaction, and Dr. Wetherell comes here for the specific purpose of gaining information which will enable him to report to the next Pennsylvania legislature a better plan.

1828—Edmund Cartwright, inventor of the power loom, died.

1860—General William Seymour, a veteran of the Mexican and civil wars, died in Florence, Seymour was an officer at Fort Sumter in April, 1861. He commanded the division which stormed Fort Wagner, S. C., in 1863.
1868—Sir John Abbott, ex-premier of Canada, died at Montreal; born 1821. The World's fair declared officially at an end.

GENERAL SEYMOUR.

AMONG THE ENEMY.

It was to conquer "the enemy's country," that Mr. Bryan hurried east last month.

He came back to find the west also had become "the enemy's country."

Each day sees Bryan-land grow smaller.

Wisconsin, Minnesota, Illinois, Iowa, Indiana, Michigan, South Dakota—they all belong to "the enemy"—and it may surprise Mr. Bryan to learn, Tuesday night, how much his own speeches have done to give "the enemy" aid and comfort.

MR. BRYAN AND EGGS.

Mr. Bryan is right about eggs.

If the government would only buy all the eggs in the country at 25 cents a dozen the price of eggs undoubtedly would be twenty-five cents the country over.

But why limit it to 25 cents?

Why not make the price twenty-five dollars and give the farmers something worth their while?

If the government can maintain one price it can the other—as long as the treasury reserve lasts.

ARE THEY TOO LARGE?

What do you do with dollars?

Spend them.

Do you wish to get as little or as much as possible for your dollars?

What good will it do you to take in twice as many dollars from other people if other people are to take twice as many dollars from you?

The cheap dollar has two sides.

HOW THEY COME.

How do you get your dollars?

Either earn them or borrow them, presumably.

The man who earns a dollar wants the very best dollar he can get.

The man who borrows a dollar feels the same way.

What is there about either transaction that makes a 50 cent dollar desirable?

A St. Joseph, Mo., banker who intends voting for Bryan, although he doesn't wish to see him elected, explains his inconsistency by saying: "You might take a rampant revolutionist and put him in an office as important as that of president, and I am confident it would make a conservative man of him." This theory may be correct, but the people of this country are not going to take any chances; they're going to elect McKinley.

The indignities offered Secretary Carlisle in Kentucky made

WHY DOES NOT MR. BRYAN ANSWER?

Mr. Bryan tells the farmers that free coinage of silver will give them cheap dollars with which to pay their debts.

Mr. Bryan tells city workingmen that free coinage of silver will raise the metal to \$1.29 per ounce, bringing the silver dollar to par with the gold dollar, thus giving city workingmen another dollar as good as the present one with which to buy the farmers' products.

That is to say, to the farmer the Bryan silver dollar is to be a cheap dollar to pay debts with. To city labor the Bryan dollar is to be a dollar of high purchasing power to buy with.

Free coinage of silver cannot produce these two dollars. It can produce only one of the two. Why do not would-be-supporters of Mr. Bryan ask him which dollar he really means? Both the farmer, who wants to pay debts, and the workingman, who must buy farm produce are interested in having this question answered.

hit, if he can escape arrest for violation of postal laws.

Sensible men are getting tired of this idle talk about coercion. Ex-President Harrison has offered his professional services gratis to prosecute any employer who coerces an employee in voting and if the charges have been made honestly something definite should be forth-coming.

Poor Jones! He'll soon be wishing his name was Brown or Smith, or anything that would enable him to escape the abuse that will be heaped at him.

Financial education is what has killed the idea of this country attempting to shoulder the task of the free coinage of silver at a ratio of 16 to 1.

Some of the alleged labor leaders have proven themselves to be very small potatoes in the eyes of the real laborers of the country.

The Bryan scare which a few people had early in the campaign is looked upon now as merely a sort of nightmare.

Poor Altgeld! Tammany's praise for him ought to make him welcome such a lesser misfortune as his defeat.

While Altgeld and Morrison swipe each other, the republicans will take good care of the state of Illinois.

Japan Has a Business Panic.

Tacoma, Wash., Oct. 30.—Japanese advices received by steamer state that a panic is prevailing in that country owing to reckless investments following the conclusion of the successful war with China.

The question arises: If one kind of democracy makes the people sick, what will two kinds do?

it. Silver demonetization had nothing to do with this. An expert in a recent issue of an engineering paper told of the enormous sums that have been spent by two or three leading electric companies in developing this industry without any profit to the stockholders. An immense business was done, employing thousands of hands and millions of capital, but one improvement followed another so rapidly that the money was absorbed in machinery, good to-day, but valueless to-morrow. The truly magical changes wrought by revolutionizing processes that of recent years have come into existence so rapidly have created an enormous volume of business without adequate profit. The railroad has had to relay its \$160 steel rails with \$80 rails, and then with \$40 rails, and then with \$25 rails; that at least ought to have brought profit to rail-makers, one would think, but the rail-maker has had to re-equip his works so often, throw away costly machinery to bring in new processes, that his profits are wiped out in most cases by the losses on his plant. What is true of the rail-maker is true of other manufacturers, and so the volume of employment for mechanics has been vastly increased at the expense of the manufacturers compelled to make so many changes. And thus through the whole range of human affairs this wonderful era of inventions, this quarter of a century, unlike any other in the world's history, is the wide-sweeping effect of its new processes, new methods, has had the effect of causing a steady decline in value. If we are to find the real cause of the vast depreciation in values, we must seek it here. Instead of decrying the demonetization of silver, we must decry the ingenuity of the human mind in bringing forth so many inventions that have cheapened the cost of everything except labor. It is difficult to comprehend the full force of these inventions—to realize what it means to double and quadruple and sextuple the productive powers of every worker by means of modern inventions. A readjustment of all business affairs becomes inevitable. We have been passing through this period for the last fifteen or twenty years, and have not yet fully adjusted business to these new conditions. The farmer has seen his property depreciate in value, and attributes it to the gold standard, but in his case, as in others, new forces beyond the control of gold or silver have come into play. The manufacturer has had to mark down his plant, for new factories in the country would sell for even one-half of the total investment put in them. Free silver could not have prevented this, because it could not have prevented new inventions and new processes and new railroads that opened up the great western prairies. Think of these things before you cast your vote in favor of depreciating the currency and adding to the embarrassments which you have already experienced.

WAS BURIED ALIVE BUT LIVES TO TELL

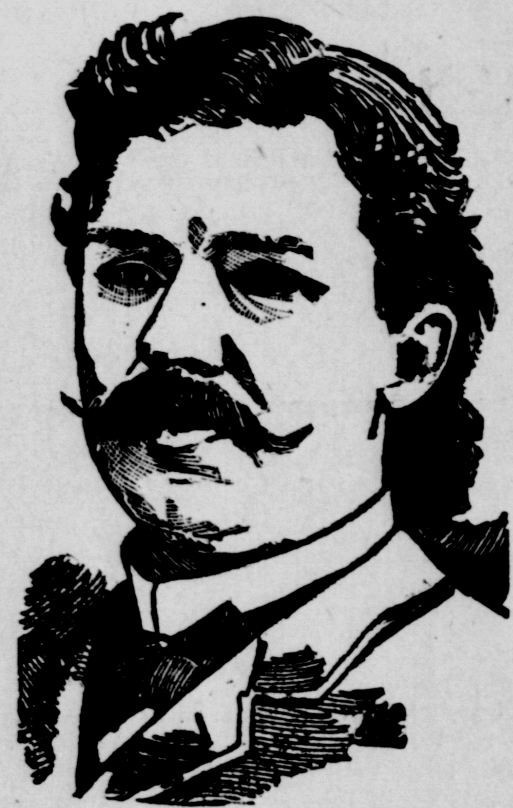

EXPERIENCE OF J. RANDALL BROWN, MIND READER.

The Well Known Medium Tells a Gazette Reporter of His Noted "Test" at Minneapolis—His Theory of the Power He Possesses—Makes His Mind a Blank.

Did you ever talk with a man who had been buried alive?

Janesville people will remember reading the experiences of J. Randall Brown, the mind reader, who went through that ordeal. Mr. Brown appears at the Myers Grand on Sunday and is now in Janesville. In an interview with him at the Hotel Myers a Gazette reporter gleaned some interesting facts relative to this marvelous and apparently impossible demonstration of suspended animation.

"I possess the faculty," said Mr. Brown, "of making my mind a perfect blank and remaining in a semi-unconscious condition or in a state of repose for an indefinite length of time. In the test I gave in Minneapolis I reduced myself to this condition, and with my eyes, ears and

J. RANDALL BROWN.

nose sealed with wax, was placed in the casket and lowered into the ground and the earth filled in as in an ordinary case of burial. I felt that I would succeed in the test, but of course I did not take any chances. I had it so arranged that I could communicate with those above the grave at a moment's notice and have air admitted to the casket if I should want it—for I did not want to die for the good of science.

Under Ground Three Days.

"The grave was watched day and night by scientific and medical men of high repute who took a deep interest in the demonstration, and guarded against fraud or deception of any kind. They kept perfect watch for signs of life and on more than one occasion it was remarked by those in attendance that they feared I had succeeded in my experiment only too perfectly. At the end of three days I gave the signal by means of a system of electrical appliances, and was exhumed, and the casket opened, and a course of massage treatment indulged in. The wax was removed from my ears, mouth, and nose, and I awoke as from a refreshing slumber. When a man is in this position, he is experiencing perfect rest. He possesses his faculties, and it is this that enables him to come back to life. In my mind reading, I always stop thinking myself, and in fact I often do this just for a little rest or for recuperation. I learned my secret from Madam Blavatsky, who in turn learned it from the 'Adept' in India."

SOME DAMAGE DONE BY THE HIGH WIND

FAG END OF A TORNADO FELT HERE.

The Gale Was Fiercest in a Northerly Direction and Tore Part of the Roof Off the Madison Opera House—Electric Wires Were Mixed Up.

Janesville felt the fag end of a tornado last night, and considerable damage was done about town. Electric wires were mixed up, and several trees were blown down. Telegraph lines north of the city suffered quite severely. The morning train from Madison was half an hour late, owing to the storm.

A traveling man who was on the train, attended the Fuller opera house at Madison, last night, and says the second act of "Off the Earth," by Eddy Foy's company, had just begun, when the storm struck. The part of the roof above the stage was lifted from its place and carried across the avenue by the wind. A mass of stones, mortar and bricks came tumbling down on the stage. A panic was narrowly avoided, the audience rushing pell-mell from the building. A falling brick just grazed the face of one of the actresses, but no one was seriously injured. The city was in total darkness, the electric plant being shut down on account of numerous live wires being on the city streets. The telegraph wires are also badly crippled. He said that several Janesville students were in the audience, but none of them were hurt.

Last night's storm was also responsible for a runaway that occurred this morning. The wind had loosened the big sign on the side of Stearns & Baker's drug store and this morning it fell. Drayman George Butler's horse was standing close to the walk and when the big sign came down the beast ran away.

Reports from the country indicate that considerable damage was done by the winds, especially north of Janesville.

STORES OPEN MONDAY NIGHT

Windows Should Be Lighted For the Parade—General Consent

Many merchants are in favor of keeping stores open next Monday night. The town will be full of strangers from Rockford and elsewhere and the sight of business houses dark and deserted will not reflect credit on the town. It is not expected that any advantage would be gained in the line of trade from opening the stores, but the streets would look vastly more city-like.

THE police give notice that no rowdiness nor destruction of property will be permitted on Halloween.

ELECTION NOTICE.

TO THE ELECTORS OF ROCK COUNTY:

Notice is hereby given that a general election is to be held in the several towns, wards and election precincts in the county of Rock, on the third day of November, 1896, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to this office, are given opposite the name of the office and under the appropriate party or other designation, each in its appropriate column and the question submitted to a vote are stated below;

INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed there on the names and or initials of both ballot clerks, and no other can be used. Upon receiving his ballot, voter must retire, alone to a booth or compartment, and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner who to vote for. The voter, if he wishes to vote for all the candidates nominated by any party, should make a cross mark X, under the party designation printed at the top of the ballot in the square made for that purpose. A ballot so marked, and having no other mark, will be counted for all of the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased, and will be counted for all names written in lieu of one erased or pasted over a printed name. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark, X after the name of each candidate he does desire to vote for. If he wishes to vote for a person for a certain office, whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memorandum to assist the voter in marking his ballot, can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any other person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks may be seen. Then the voter should pass out of the booth, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer, that he is unable to read, or that by reason of physical disability, he is unable to mark his ballot, can have the assistance of one or two election officers in marking the same, to be chosen by the voter. The presiding officer may administer an oath, in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:

W. J. MCINTYRE, County Clerk.

If you desire to vote an entire party ticket, make a cross mark in the square under party designation at the head of the ballot. If you desire to vote for all the ticket, except particular persons, erase their names, or mark opposite the names of the candidate you desire to vote for in another column, if it be there, or write in the name you wish to vote for. If you desire to vote for candidates on different tickets, erase the names of the candidates you do not wish to vote for and make a cross (X) opposite and after the name of the candidate you desire to vote for, or write his name in the blank space under the name erased.

Fourteen Committees Arranging for Convention at St. Louis.

St. Louis, Oct. 30.—Arrangements are actively in progress for the twenty-third annual convention of the National Woman's Christian Temperance union, which will open here during the second week of next month. Not less than fourteen committees have been appointed to attend to as many departments of the details, and it is promised that the programme will be replete with new and striking features. Between the prayers, exhortations and speeches, music is to be furnished by a double quartet, a colored quartet and a trained chorus. One afternoon is to be devoted to an Armenian mass-meeting, on which occasion the hall will be draped with symbols of mourning, and the exercises will take the character of a memorial to the 100,000 victims of Turkish wrath. The national officers of the Armenian relief committee and several men and women who have escaped the massacres and found their way to this country are to be among the speakers. The annual convention sermon is to be preached by Miss Elizabeth W. Greenwood, the world's and national superintendent of evangelistic work. All the ushers are to be young women, who will be costumed in a uniform of blue, with gold braid.

Massachusetts Behaves Well.

New York, Oct. 30.—The new battleship Massachusetts reached her old anchorage off Tompkinsville, S. I., last night, having emerged successfully from the many tests made by the board of inspection which tried her worth. Her guns and their mountings stood the shock of full service charges, which were fired at various angles and elevations, her maneuvering qualities were satisfactory to a high degree, and when it came to drilling the crew the men showed the high degree of efficiency to which they have been brought by Capt. Fred Rodgers and his executive officer, Lieutenant Commander C. H. Arnold.

Newspaper May Not Be Prosecuted.

Berlin, Oct. 30.—It is understood that the proposed prosecution of Prince Bismarck's organ, the Hamburger Nachrichten, for publishing secrets has been abandoned out of fear of the harm such a step might do to Germany's foreign policy. It is added that, however, should Prince Bismarck publish the circumstances under which he resigned office the government will be forced to act, and it is said it would probably treat Bismarck in the same manner that the latter treated Count von Arnim.

Japan Has a Deficit.

Tokyo, Oct. 28.—The new Japanese ministry has succeeded in arranging that the state expenditures for the next fiscal year (April 1, 1897, to March 31, 1898) shall be brought within the limits of the revenue—by no means to say, 220,000,000 yen. The estimates originally sent in by the various departments of state were found to aggregate 245,000,000, and it was the difficulty of making both ends meet under these circumstances that caused the resignation of the late minister of finance.

New York Bank Shut Down.

New York, Oct. 30.—Rafael Mendel & Son's bank has shut down and over 200 poor people are mourning the loss of their hard earned deposits. Mendel, Sr. has fled to Europe. The customers are for the most part Germans and Poles and the losses run from \$25 to \$100. Foreigners used the bank as medium of sending money to their families in the old country.

To Adjust Sealers' Claims.

Seattle, Wash., Oct. 30.—Robert Lansing, one of the counsel for the representatives of the United States commission, which is to meet in Victoria next month, is in this city. This commission is a joint one and is made up of representatives of the United States and British governments. Their decision will be final as to the award to be made the British sealers seized in 1893.

Boston Elopers Marry in Paris.

New York, Oct. 30.—Mrs. Julia Borland Higginson and James Wheatland Smith, who eloped from Boston a year ago, have been married in Paris. Mrs. Higginson was the wife of one of the most prominent and wealthy bankers in Boston and moved in the most exclusive society in that city. The man she eloped with was 15 years her junior, a young lawyer, society man and athlete.

Crops Along the C. B. & Q.

New York, Oct. 30.—Estimates of crops along the line of the Chicago, Burlington & Quincy railroad for this year give for corn 1,235,609,000 bushels, an increase of more than 160,000,000 bushels over 1895, and for wheat, 165,596,000 bushels, an increase of about 17,000,000 bushels.

What Beats Bryan.

Nature has finally outwitted the Bryan popocrats. The law of supply and demand cannot be nullified by the fiat of the free silver crowd. If the repudiationists should happen to get control of the Fifty-fifth congress there is no doubt but that they would repeal not only this law, but the law of gravitation. The free silverites have been brazenly defying nature for several years. But the tireless dame was here before Mr. Bryan and it's sixteen to one that she will be here long after the boy declaimer has joined the shades of Demosthenes, Patrick Henry and other great spellbinders.

Nature doesn't make as much noise as Mr. Bryan. She has no rear platform voice. Noiselessly she rules the marts of trade with a mysterious and powerful alchemy that defies the puny efforts of Mr. Bryan and Mr. Altgeld to resist her.

It has been a fierce struggle, but nature is certain to win out. Bigger people than Bryan and Altgeld have tried to improve upon her methods of running the universe. The highways of history are strewn with their skeletons.

While Mr. Bryan has been charging the low price of wheat and other agricultural products to the gold standard and an "appreciating dollar," the inexorable law of supply and demand has been quietly doing business at the old stand. The rear platform agitation of the atmosphere has not blighted the productive powers of our own soil, neither has it removed the demand for the surplus fruits of our husbandry in countries where crops are deficient.

In spite of the Chicago platform several hundred million dollars have been added to the value of American products in the last ninety days. Wheat had advanced from 59¢ cents to 70¢ cents on Oct. 13. Corn, oats, rye, butter, eggs, potatoes and other farm products have gone into a conspiracy to assassinate free silver. It is more dreadful than "the crime of '73." It has been worked out surreptitiously and in the dark. Nature is in league with the gold bugs.

Just at the critical moment when the farmers of India, Argentina and Australia should have come to the rescue of Mr. Bryan the wheat crops in those countries turned out almost a failure. As a consequence the American wheat market has nefariously profited by the decreased supply. The exports from America alone during the last five weeks aggregated over 20,000,000 bushels, and the price is soaring skyward. This enormous exportation is sending to America a steady stream of the yellow metal which Mr. Altgeld, Senator Stewart and Mr. Sewall declare is a good thing to have in leases and contracts, but which is "too good" to pay American wage-workers.

Will nature continue to press down upon the brow of populism this crown of thorns? She will.—Chicago Times-Herald.

Boy Oratory.

A good illustration of what boy oratory is is furnished by the Bowery savings bank in New York. It was chartered in 1834, and it has successfully withstood many periods of business depression. It was organized for the purpose of being, and it continues to be, the depository of poor but thrifty people, and for that reason it accepts deposits as small as one dollar, though the account does not draw interest until it amounts to five dollars. It will receive deposits no larger than \$500, and no account is permitted to exceed the sum of \$3,000. The report of this bank has just been published, from which it appears that it has 113,459 depositors, to which is due the sum of \$56,854,596.88, making an average to each of about \$500.

According to boy oratory all these depositors are "pirates and bloodsuckers" if they are not willing to have the value of their small savings cut in two for the benefit of silver mine owners. But boy oratory is sound when it asserts that the fight is the fight of the masses against the classes. The masses who have deposits in savings banks, those who have their lives insured, and those who are interested in building and loan associations have every reason to be fighting the silver and anarchist classes.—New Haven Commercial Courier.

They are so little you hardly know you are taking them. They cause no griping, yet they act quickly and most thoroughly. Such are the famous little pills known as DeWitt's Little Early Risers. Small in size, great in results. C. D. Stevens.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula, or consumption. "That," he will tell you, "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition. Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering, bronchial, throat and lung

Chronic constipation is a painful, disagreeable and life-shortening difficulty. It deranges the system, causes sick headache, bad breath, and poisons the blood. It can be readily overcome by DeWitt's Little Early Risers. These little pills are great regulators. C. D. Stevens.

Bryan at Madison.

For the democratic rally to be held in Madison on Friday, Oct. 30 the C. & N. W. railroad will sell excursion tickets on Oct. 30, to Madison good to return until Oct. 31 at \$1.60 for the round trip.

Many political speakers, clergymen singers and others, who use the voice excessively, rely upon One Minute Cough Cure to prevent buskiness and laryngitis. Its value as a preventive is only equalled by its power to afford instantaneous relief. C. D. Stevens

A New Discovery by the Shakers.

For more than a hundred years the Mount Lebanon Shakers have studied the cultivation of medicinal plants and sought to extract from them their healing essences. Their labor has not been spent in vain. They have made a discovery that will prove a blessing to mankind. It consists of a cordial that causes immediate relief in cases of indigestion. The importance of this discovery will be apparent when we realize that nearly nine-tenths of our sufferings are caused by dyspepsia or indigestion. Nearly every person you meet has this digestive trouble in some of its varied forms—sick headache, distress after eating, pain and fullness in the chest after eating, palpitation of the heart, etc., are but symptoms of indigestion. To relieve these sufferings, they have succeeded. The reason the Shaker Digestive Cordial has such an immediate and salutary effect is that it causes the food eaten to be digested, for it is the undigested food that causes the distress. The Cordial causes the food to be digested before there is time for it to ferment and sour on the stomach. When the food is so digested it gives strength and vigor to the feeble body, makes one feel bright and cheerful, and makes one gain in flesh. The Digestive Cordial is so prompt in its action that the very first dose will have a perceptibly favorable result. It gives immediate relief. Every druggist has been sent a supply of our handsome Donkey Puzzle Books, and a copy may be had for the asking. It tells all about the Cordial as well as Laxol, the new castor oil. Try a twenty-five cent bottle of Digestive Cordial and see what it will do for you.
